### **About Hardinge**

Hardinge is a leading global designer and manufacturer of high precision, computer-controlled machine tool solutions developed for critical, hard-to-machine metal parts and of technologically advanced workholding accessories. The Company's strategy is to leverage its global brand strength to further penetrate global market opportunities where customers will benefit from the technologically advanced, high quality, reliable products Hardinge produces. With approximately two-thirds of its sales outside of North America, Hardinge serves the worldwide metal working market. Hardinge's machine tool and accessory solutions can also be found in a broad base of industries to include aerospace, agricultural, automotive, construction, consumer products, defense, energy, medical, technology and transportation.

Hardinge applies its engineering design and manufacturing expertise in high performance machining centers, high-end cylindrical and jig grinding machines, SUPER-PRECISION<sup>®</sup> and precision CNC lathes and technologically advanced workholding accessories. Hardinge has manufacturing operations in China, France, Germany, India, Switzerland, Taiwan, the United Kingdom and the United States.

The Company regularly posts information on its website: [www.hardinge.com](http://www.hardinge.com).
